SUMMARY

MERN Stack Developer with 1+ year of hands-on internship experience building full-stack applications with React.js, Node.js, Express.js, and MongoDB. Proven ability to design authentication systems, RESTful APIs, and responsive UIs, backed by a portfolio of self-built, production-deployed projects including a team collaboration platform, HR management system, e-commerce store, and AI-augmented blogging platform.

PROJECTS

Vortask — Team Collaboration Platform | vortasky-app.vercel.app

React.js · Node.js · Express.js · MongoDB · JWT

- Engineered a full-stack project management platform with Kanban boards, role-based access control, and real-time activity logs.
- Implemented secure JWT authentication and API token management supporting multi-user team workflows.
- Designed a RESTful API with 15+ endpoints; deployed to Vercel with a CI-ready Git workflow.

Employee Management System (NextHire) — HR Management Tool | employee-management-system1-six.vercel.app

Next.js · TypeScript · Node.js · Express.js · MongoDB · JWT

- Built a full-stack HR tool covering employee/department CRUD, secure login, payroll and leave tracking, and an analytics dashboard.
- Structured MongoDB collections for relational-style department-employee queries using aggregation pipelines.

E-Commerce Clothing Store | ecommerce-website-orig.netlify.app

React.js · Node.js · Express.js · MongoDB

- Developed a complete shopping platform with product listings, cart management, order workflows, and user authentication.
- Managed global cart state via React Context API and integrated backend APIs for product and order persistence.

Lumina — AI-Augmented Blogging Platform | lumina-roan-five.vercel.app

Next.js · TypeScript · Node.js · Express.js · MongoDB · Tiptap

- Designed a performance-optimized, dark glassmorphic frontend with a reusable component library and accessibility-first UI.
- Integrated an AI writing assistant using the Anthropic SDK with a rich-text (Tiptap) editor and quick-action content tools.

EXPERIENCE

MERN Stack Developer Intern

Jan 2026 – Jun 2026

Uptech Sol Limited, Islamabad — Remote, Paid Internship

- Contributed to full-stack MERN business applications for live clients, working on authentication, CRUD operations, and third-party API integrations (project details confidential under client NDA).
- Built responsive React.js interfaces using reusable component architecture, helping reduce UI rebuild time.
- Assisted in designing and optimizing MongoDB schemas for real-world business data storage and retrieval.
- Participated in Agile sprints and code reviews alongside the engineering team.

MERN Stack Developer Intern

Jul 2025 – Dec 2025

Mateen Group of Companies — Remote, Paid Internship

- Maintained and extended full-stack client web applications; assisted in troubleshooting and resolving production issues (project details confidential under client NDA).
- Helped develop and integrate RESTful backend APIs with React frontends to improve data-load performance.
- Collaborated remotely with cross-functional teams using Git/GitHub branching workflows.

- Refactored legacy components into reusable React hooks to reduce code duplication.

MERN Stack Developer — Fellowship

Jan 2025 – Jun 2025

Buildables, Islamabad — Remote, Unpaid Fellowship

- Completed an intensive fellowship covering full-stack development with React.js, Node.js, Express.js, and MongoDB, following industry best practices.
- Built and deployed multiple MERN applications with RESTful APIs, authentication, and cloud hosting.
- Practiced collaborative Git workflows, peer code reviews, and Agile project delivery.

SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript (working exposure), HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, RESTful API Design, JWT & Session Management

Database: MongoDB (schema design, aggregation pipelines, query optimization)

Tools & Practices: Git, GitHub, Postman, VS Code, Agile/Scrum, Code Reviews, MVC, CRUD

Cloud & DevOps: AWS (working exposure), Docker & CI/CD concepts, Vercel, Netlify deployments

EDUCATION

BS Computer Science — Virtual University of Pakistan

April 2026 – Present (1st Semester)

Intermediate — IMCG I-10/4, Islamabad

September 2022 – May 2024

LANGUAGES

English, Urdu
